

UNCLASSIFIED

SPECIAL ASSISTANT TO THE SECRETARY OF STATE  
WASHINGTON

INT 154/1

199

December 16, 1946

To: FC - Mr. Jack D. Neal

I regret very much the delay in returning the enclosed, but every minute of my time in the office at the end of last week was commandeered by conferences on problems of space in the proposed relocation of the Department.

I have only two very minor suggestions with regard to this excellent draft:

The following sentences might be added after line 6 on page 3:  
"The location and the functional designation of each CIG representative abroad must have the prior concurrence of the Department, in accordance with the agreement between the Secretary and the Director of Central Intelligence. The officer in charge is, therefore, assured, with regard to any proposal for his post, that it has the full approval of the Department."

An additional paragraph numbered "7" might be added at the end of page 8 as follows:

"7. CIG representatives will not engage in collecting or reporting positive political and economic intelligence except when specifically authorized to do so by the officer in charge. Any overt intelligence which they may gather in the discharge of their duties should be passed directly to the officer in charge for him to report to the Department."

Thank you very much for letting me see this paper. I have not reviewed the exchange of letters between the Secretary and the Director of Central Intelligence to see whether the draft mentions all the points covered, though I believe it does so, so far as my memory serves.
